

PFB45

- > Fixed Blade 45° Grille
- > Streamlined Blade Design
- > Horizontal or Vertical

DESCRIPTION

PFB45 return Grilles have fixed horizontal blades (parallel to width) or fixed vertical blades (parallel to height). They are spaced on 19mm centres with 45° or 0° straight face deflection. Deflected blade grilles installed in a low or high side wall location are vision-proof with the grille deflection facing away from the line of sight.

CONSTRUCTION

Extruded aluminium frames with reinforced mitred corners.

Finish:

White polyester powder finish
RAL 9010 semi-gloss is standard.
Other finishes are available.

Options:

- Integral damper (opposed blade)
- Narrow frame with 25 mm face border
- Foam Gasket

AVAILABLE TYPES

- PFB45-H:** 45° Horizontal
PFB45-V: 45° Vertical
PFB0-H: 0° Horizontal
PFB0-V: 0° Vertical

NOTES

All dimensions are given in mm. Standard sizes are available from 100 mm x 100 mm to 1200 mm x 1200 mm in single section construction. 50mm increments only on the height.
Other sizes, including multiple section assemblies, are available on request but are subject to manufacturing limitations.
